

New Lugaia SafeSeal Toolset Type 90

The new Toolset Type 90 allows working with the new crimp size (L). It has also adapted to new circumstances.

New crimping pliers: The new crimping pliers are characterized by their higher press power of 30%.

Also new is that the pliers can now be used to press the new SafeSeal crimp size L.

New cutting tool: The blade of the new cutting tool now serves as a guide device. It is characterized by its robust and solid design.

New Lugaia SafeSeal Crimp Size L (green)

Crimp Size L: The new crimp completes the SafeSeal product range. It is suitable for the closure of bags up to 4 layers per 100µ and with a width of 1000mm.
